

Good afternoon on this nippy day of January 20th, 2022.

Its quite an honor to be here talking to you dear friends that love me. my Family wondered if I'd make it into the new year! really and truly I am thankful to talk to you alive and getting well! I'm not perfect yet but getting there :)

The last days of December 2021 almost took me out of this old world and send me to Heaven! I wasn't aware of it all but my poor family fought hard on my behalf and finally found a hospital where I could be taken care of.

It would not have been the hospital that I would have chosen to stay at, but I wasn't part of the family at that time that were making decisions. But there were no more choices as there were many others, sick like me, that needed care, that had filled up all the other clinics and hospitals so my family was so grateful this hospital in Sierra Vista, 1 hour from our home was able to take me in, even with covid in my body, double pneumonia and a Uti, and treat me! I was sick for seven days and came out alive but weak as a kitten! I Guess the best part about my long hospital stay there was that I lost 25 lbs during that time! I had lost all appetite, which is amazing for this old lady. But it happened and lasted for days even after my return home! not the easiest way to lost weight but it happened and I am grateful to God for such a miracle!

Coming home meant alot of changes and was such a celebration for me as all my family shared with me how grateful and were so thankful to God they still had me! Oh it's great being loved and appreciated<3!! With dr. visits -xrays taken-blood tests-just about anything you could thank of!!! All that made me tired all over again as well as my husband!! We are glad most of it is over for us. Now we wait for God's healing! Paul has been such a good housekeeper and my son and daughter in love and my daughter have helped in the cooking and cleaning of such long unattended places!

Paul and I want to thank you from the bottom of our hearts for praying and interceding for us in these trying days: many of you didn't know but others were kind to share the word of my condition and so many others began to pray and give of their love...We are so touched by the love and care of the Brethren!! and(Sistern!)

No words are enough to say what we know and feel and are overwhelmed...Truly filled with God's mercy!

Hi! Paul speaking here...

I AM SO glad to get my wife back and I am praising God to have her with me at home!  
! It has been wonderful to see God answer prayer and bring healing back to her body day by day.  
I also want to thank you dear ones that continue to pray for us, even tho you didn't know what we all  
were going through. A BIG THANK YOU!!

Now I go alone every Sunday to our local prison now that Pat is still not strong enough to  
travel with me to the different prison units .however the Lord gives me strength in spite of  
a bad hip and other maladies. The men miss Pat and are praying for her as well. They are  
so grateful that we don't forget them. They are very interactive in the Bible Studies. We  
praise God for the many Brothers in Christ that we have there and trusting the Lord to  
bring many more to believe in Him!

Please pray with us to that end...

You are precious to us ...
