

Todd & Chelle live 14 miles from us on their "Farm". He and his four sons have a construction company which keeps them traveling a lot to different States. Chelle loves having her grand-babies close by and she and Jen hold the fort down when the guys are away on jobs.

Sean & Jennifer have their home on the "Farm" also. They are raising rabbits and have a beautiful garden in the summer. Jen has her hands full homeschooling Kezia and Eli as well as being mom to active Ezekiel and Declan! 😊

Clay also lives in his place on the "Farm" and is the "chief mechanic"! When he's not traveling he's maintaining the vehicles, which keeps him busy!

Tucker & Kendra have a wee cottage on the "Farm" and Kendra often works right along with the guys, however, those days are limited as their baby is due this summer! 😊

Mitchell's on the "Farm" also in his own space and keeps everyone entertained with his dry humor. He's been bringing a sweet little friend around recently, so we're looking forward to getting to know her better.

We are SO thankful that each one of our grandchildren love the Lord Jesus and are walking with God and desire to serve Him! Talk about "blessing upon blessing"! Todd's got himself an amazing work crew that work well together and put in LONG, hard hours! How we thank the Lord for them!!!

As you can see, Matt and Starr have their hands full! (literally!) ☺ Between grand-babies and ministry involvement at the missionary training center they're BUSY! Matt teaches and they mentor and are involved in the lives of the students. They also make trips into Mexico and have an ongoing ministry among the Tepehuan people.

Matt & Briana Hamb live close by and they keep super busy with their jobs and raising their two daughters, Jaylin and Mely. They also enjoy being involved at their church!

JJ & Whitney, will graduate from Ethnos360 Training this Spring. They would love to serve in Mexico and the next step for them will be developing a good support group around them. It's been wonderful having them close! Their little ones are Coco and AJ.

Caleb & Emily have been in Mexico for a year now and have just finish their Spanish study. They have recently made the decision to move into the Tepehuan tribe where Caleb was raised. Their children are Desi, Cohen, Tessa and Avonlea.
