

Dye Update

Sept 19, 2023

We survived the frenzied month of August and feel relieved that Larry's dad finished his radiation treatments the middle of September. I (Kim) credit Paul's therapeutic recovery of his hip replacement surgery to Larry's devoted attention to his parent's needs (especially his dad) **What a huge praise** — Thank you for praying for Paul's hip healing and his 34 radiation treatments! The Lord graciously granted over 9000 miles of safe travels driving back and forth to Tucson. Larry's dad is still weak but his neck is healing well from the adverse affects of the radiation.

The travelers

Maintenance minutes:

July and August consisted of Larry not only continuing to maintain the roads at our mission facility (on the grader along with other guys using the roller equipment, etc.) but, also, maintaining of the hangar facilities to protect aircraft entering and exiting the building. He and other colleagues worked for a couple of weeks installing a safer mechanism for the bi-fold door. It took proficiency of welding, assembling & electrical rewiring (which Larry implemented from the advice of a trained electrician—who volunteers here at the Aviation headquarters.)

Hospitality highlights and Family fun

Kim and the hostess team prepared (in spite of high heat temps this summer) to set up 6 trailers for trainees and families staying for recurrency training. It was full on attention-to-detail from arranging furniture down to selecting utensils, dishes and deep cleaning. Plus upkeep of the guest house before and after visitors passed through. It is all physically demanding but totally rewarding as the Apostle Paul highlighted hospitality various times in the New Testament where we are encouraged to have true care, concern and consideration of others by meeting their physical needs, as well.

On a happy note, Kim was able to fit in a Connecticut visit with her parents, sisters & family, THANKS to a dear couple paying for her ticket. Alicia joined in on the gathering after her journey abroad with one of her cousins.

August, also, brought 4 new trainee families to McNeal to prepare to serve abroad from classes taught, hands-on-experience on a helicopter maintenance project, to flight time required and interaction with staff through meetings and events. The 2 to 3 semesters of training is an introduction for future field scenarios these pilot/mechanics will encounter.

Praise:

- ♦ God has brought more laborers.
- ♦ Continued daily strength to fulfill the ministry God has given us.
- ♦ Parents showing healthy improvement.

Prayer:

- ♦ Wisdom and patience in working with the new trainees on the R66 2000 hr. inspection project.
- ♦ Alicia to find a job in Arizona in God's timing.
- ♦ Austin as he is studying and taking written pilot tests before starting down the path of flying. And as he and Katelyn tie the knot in October!

Mailing Address:

9300 N Wynn Dr., McNeal, AZ 85617-9568

Support Address:

Ethnos360, 312 W 1st St., Sanford, FL 32771-1231.

Any financial gifts are tax-deductible and must be made out to Ethnos360 and sent to the support address above. Designated for "the ministry of Larry and Kim Dye"

Gratefully serving,

Larry & Kim Dye
