## **Dearest Ones that love us and pray for us cuz you are concerned about us!**

Again we greet you in the name of our precious Lord Jesus from **hot hot AZ**. The kind of days old folks like us should be staying inside!:( But instead we are having to run around up to Tucson( 2 hr.trip) to see the Dr. and Paul getting his radiation treatments...and getting paperwork from our PCP dr. to get to go to another Dr. This growing old is NOT for sissies! Nor for the faint-hearted! And they are surely not the golden years we had heard about growing up but instead, they are rather tainted!

I went thru a procedure up in Tucson as well and to my dismay they couldn't finish it cuz the count was too high. Driving 2 hrs.—putting on a gown and not getting the test done is rather discouraging indeed!:( But I did go and ask for my co-pay back and they gave it to me !

Yesterday Paul went with our Son Larry, as I was bushed from the day before... for his **2nd** radiation treatment and before they screwed down his mask...the machine was broken! Now that's Tucson!BIG CITY! Not Sierra Vista- out in the country so to speak- and only **one** hr. away from home where we went for the last radiation treatments and we were told their machine was too old to even use(tho we were told that too late!). **It's so great to know we are in God's Love and Care!!! Such goings on are unbelievable!** Also, we had appts. with Paul's surgeon to do Paul's hip replacement surgery on 8-8-23.Thursday nite in the mail, **we received word that the insurance is denying** that operation!! Paul is in tremendous pain because of his hip and it's much more than the pain on his face!! So our surgeon said he'd work on that reversal of the insurance Co.So do **keep** interceding for us please! Paul feels this hip replacement surgery will help him immensely!

I went to see that new film that is out now, with my son and daughter! Being missionaries in Colombia, we were well aware of these things going on already in those countries.Some of the movie even made us

homesick for Colombia! We are grateful that this horrendous sin is being brought out into the open, to the attention of the whole world! Hollywood might get saved yet!!!

**Well...Paul is leaving soon for his first service at the local prison which is only 15-20 minutes away. Then tomorrow he will have one morning service, then an evening meeting where the most men attend. Our mission field is almost right in our back yard! My dear Husband will no doubt keep going until he cannot go anymore...and I hope to join him sometime! But since we are praying for a miracle and how the Inmates pray over Paul...and you dear Ones...God may do something on behalf of His Servant don't you think? Many friends gave \$ so that our kids could buy a decent chair for him to sleep in. This hip and growth of his doesn't allow him to sleep in a bed anymore and it causes much pain. With this new chair my children purchased is being a real blessing indeed to my husband... But he really needs this operation!**

\*We had a visit from a former inmate the other day!! He brot his wife and two kids a well and as he said" Its been too long since we've been together". He said in his text to me He wanted his own Kids to get to know the people that had such an influence on his life and our testimonies there in the prison back then, is what he is today because of it. You can imagine the **joy** those words brot us! Our time together-(11 til 3:30pm ) was very profitable and his kids were a large part of our conversation of course! They had a 3 hour trip back home- cuz we live so far! We keep getting tidbits from others as well and it fills our hearts with thanks, knowing that ***His Word never returns void!*** Life is not easy for these men as they leave here and go back to what they knew. Many decisions have to be made in order for them to stay close to the Lord!! They must find good wives as well! So you see dear Ones ***we all need your faithful prayers*** in these days for them and for us...God bless you all for standing behind us and alongside us with your gifts of love ...May He bless you richly for it all! We leave you with this verse found in the book of **James 5:16...** "***Confess your faults, one to another, and pray one for another,, that ye may be healed. The effectual fervent prayer of a righteous man availeth much!***"

**PERHAPS TODAY...JESUS WILL COME!!**

**GRATEFULLY YOURS...PAUL AND PAT DYE**
